FEED THE FUTURE

The U.S. Government's Global Hunger & Food Security Initiative

INTRODUCTION TO research4life PROGRAMS

Attribution-ShareAlike 4.0 International
(CC BY-SA 4.0)

OBJECTIVES OF RESEARCH4LIFE (R4L)

- To connect developing world researchers with the international scientific community
- To reduce the 'publishing gap' and improve the quality of locally produced articles and journals
- To 'ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international agreements' (UN Sustainable Development Goal #16)
- As of June 2018, 8900 registered institutions

FEED THE FUTURE

LATEST NEWS

New Research4Life website unveiled

We are pleased to present you the new Research4Life website. Our new and renovated site was launched at the Research4Life General Partners Meeting which was held at the National Academy of Sciences in Washington D.C. on 18 July. The new [...]

PRIMARY TARGET AUDIENCES

- Eligible categories of institutions are:
 - national universities
 - professional schools (medicine, nursing, pharmacy, public health, dentistry)
 - research institutes
 - teaching hospitals
 - government: ministries and agencies
 - national medical libraries
 - locally based non-governmental organizations (NGOs)

All permanent and visiting faculty, staff members and students are entitled to access and can obtain the institutional User Name and Password.

FEED THE FUTURE

The U.S. Government's Global Hunger & Food Security Initiative

Countries, areas and territories eligible for Research4Life

- Group A countries
- Group B countries

0 800 1,600 3,200 Kilometers

The boundaries and names shown and the designations used on this map do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.

- **HINARI:** health research (up to 13,500 journals, up to 60,000 books and up to 110 other information resources, www.who.int/hinari/en/)
- **AGORA:** agriculture research (up to 10,000 journals, up to 26,500 books, up to 30 information resources www.aginternetwork.org/en/)

FEED THE FUTURE

The U.S. Government's Global Hunger & Food Security Initiative

- **OARE:** environment research (up to 11,500 journals, up to 27,000 books, up to 55 other information resources, 3200 registered institutions) www.unep.org/oare/en/
- **ARDI:** development and innovation research (up to 7,300 journals, up to 22,000 books, up to 25 other information resources 1000 registered institutions) www.wipo.int/ardi/en/
- **GOALI:** launched 06 March 2018, law and law related content (up to 1,800 journals 6,900 books and 10 information resources) www.ilo.org/goali

R4L: COPYRIGHT/USER AGREEMENT

- All registered institutions will sign a User Agreement covering:
 - Use of the programs' password
 - Copyright and Fair Use
- Agreement shall be available in your institution

USE OF THE R4L PASSWORD

- **Do Please Share** R4L username and password with colleagues, students, faculties in your institution
- **Do Not Share** with those from outside the institution
- **Do Not Use** outside the country – see next slide

SPECIFIC SITUATIONS: OUTSIDE THE COUNTRY USE (AS OF JULY 2018)

- Individual staff and faculty of an institution **are permitted** to use R4L during short-term professional trips outside the institutional environment including outside the country (e.g. 1 month maximum).
- Student at registered institutions **may use** R4L no matter where in the world they are located. Institutions with Distance Learning programmes should connect via IP-based logins but not distribute username and passwords to remote students.

COPYRIGHT AND FAIR USE

- Same as typical copyright and fair use principles: It is **OK**, for example, to:
 - Download or print up to 15% of a journal issue or book
 - Use material for educational purposes (course packs or reserves)
 - Make copies for institution members or students
- Be cautious but sensible

ABUSE OF PUBLISHER PRIVILEGES

- It is **NOT OK** to:
 - Charge for documents, except for cost recovery for teaching materials
 - Post content to websites or blogs that are publicly accessible
 - Change content
 - Download all articles from a single issue
- Violations result in the **INSTITUTION** or **ENTIRE** country denied access until the problem is resolved.

Google **Scholar** searches for academic material and, via the links in the search result's right column, you can access full-text material including what is available from AGORA.

Note: you must use the AGORA link to **Scholar** or, for non-Open Access articles, you will be asked to login (individually) or pay for the article. Also, if the publisher does not grant access to your institution, the **Scholar** link will not work.

WHAT IS SUMMON?

- Summon is a Google-like search engine that provides fast, relevancy-ranked results:
- Enter the search terms into a single search box or select Advanced Search options from the results page
- Refine (limit) results by criteria such as date, subject, academic journals and other options
- View results, and link directly to full text or more details
- Contains links to AGORA/Hinari resources in e-journals and e-books.
