Un enfant, un oeuf par jour!

Feed the Future Innovation Lab for Livestock Systems

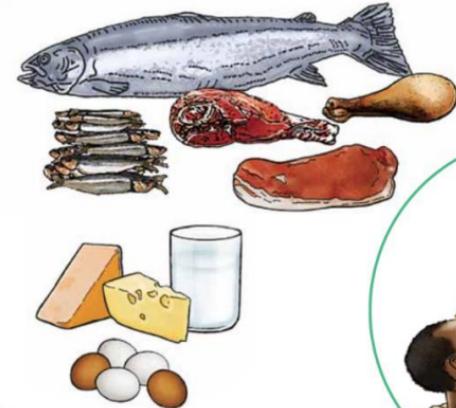

Livestock-lab@ufl.edu
<http://livestocklab.ifas.ufl.edu>

This training manual was made possible by the generous support of the American people through the United States Agency for International Development (USAID) and its Feed the Future Innovation Lab for Livestock Systems managed by the University of Florida and the International Livestock Research Institute. The contents are the responsibility of the University of Florida and do not necessarily reflect the views of USAID or the United States Government.

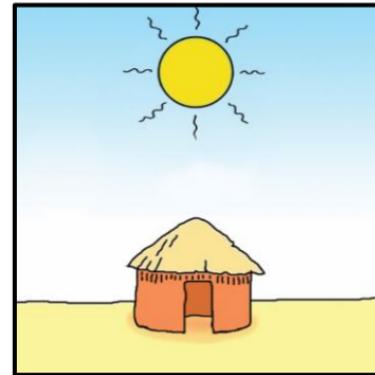

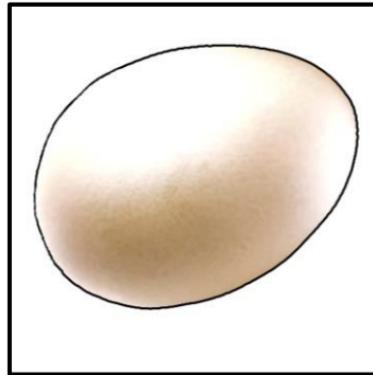

This is a chart for the women to monitor their monthly activities. Each month put a sticker in the box corresponding to the activity if the women has completed or mastered that activity that month

**Ajoutez les aliments nutritifs complémentaire
à six mois.**

Alimentez les enfants un oeuf par jour.

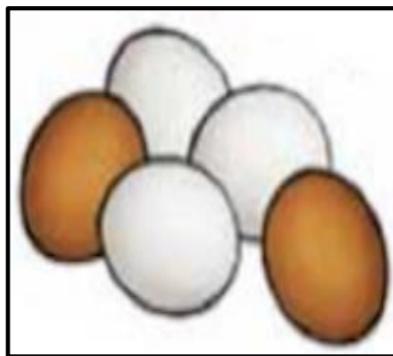

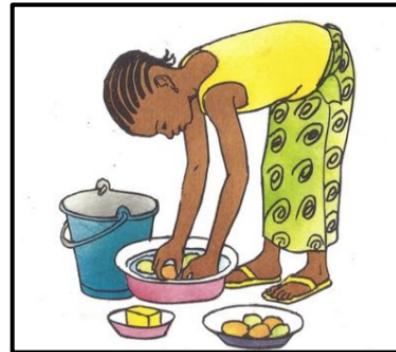

Credits: SPRING; UNICEF/URC-CHS; UNICEF/URC-CHS

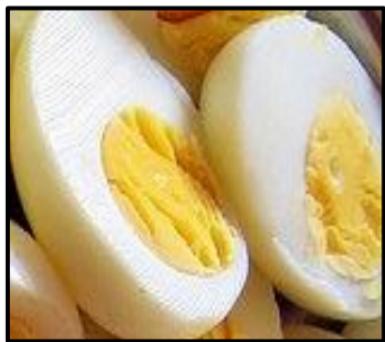

Le lavage des mains empêche la diffusion de maladie.

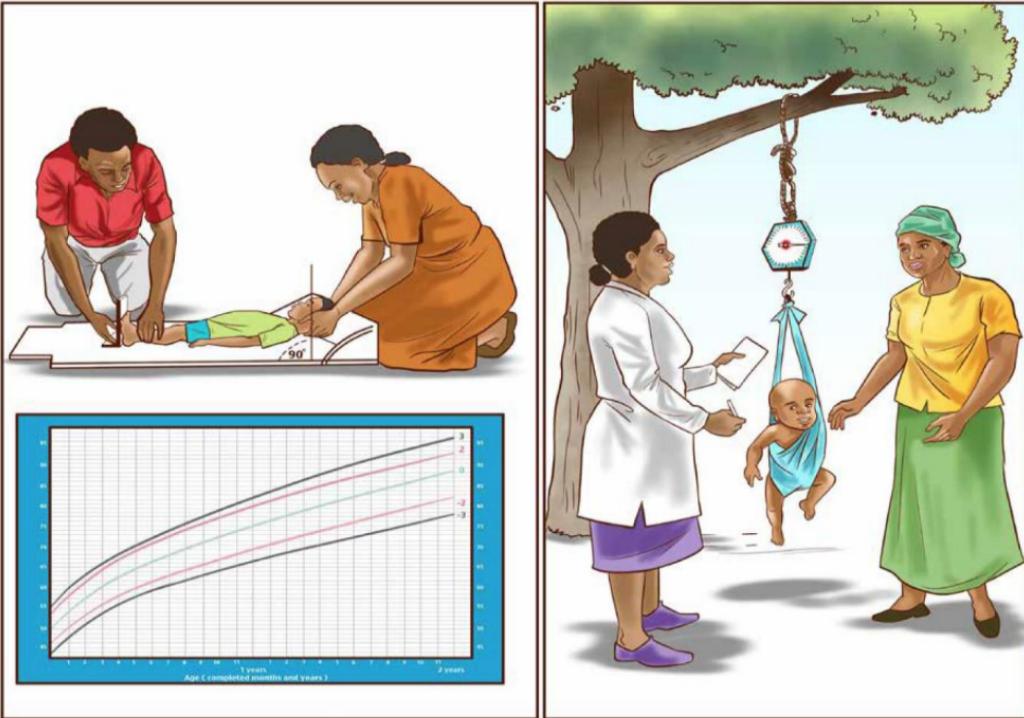

Faites bouillir les oeufs dans l'eau.

**Démolissez les oeufs avec le lait maternel selon
le besoin.**

Suivez la taille et le poids de votre enfant.

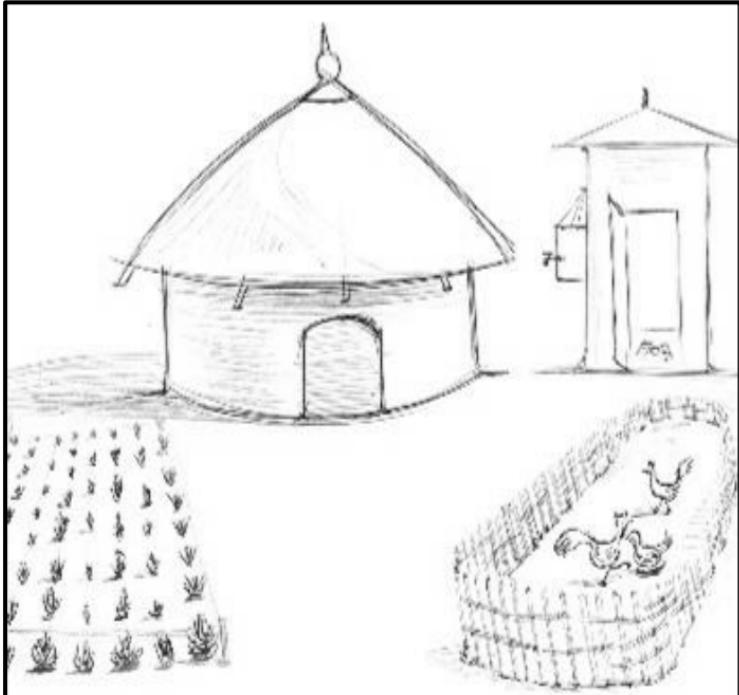

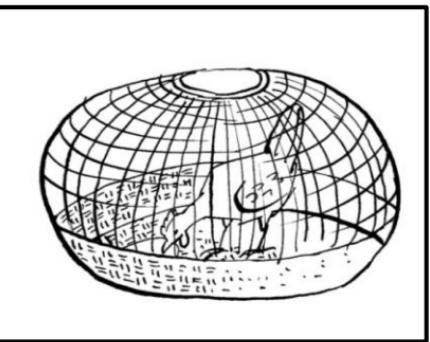

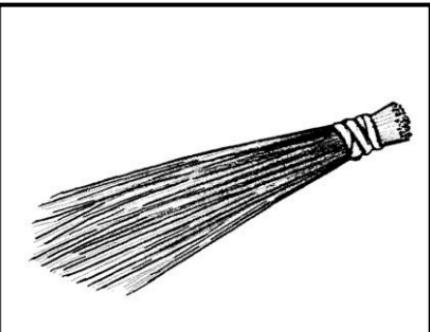

Credits: Millennium Village Project

**4 poulets produiront assez d'oeufs pour l'enfant à
manger un oeuf par jour.**

4

Les excréptions de poulet sont sales, donc gardez vos poulets séparés du ménage.

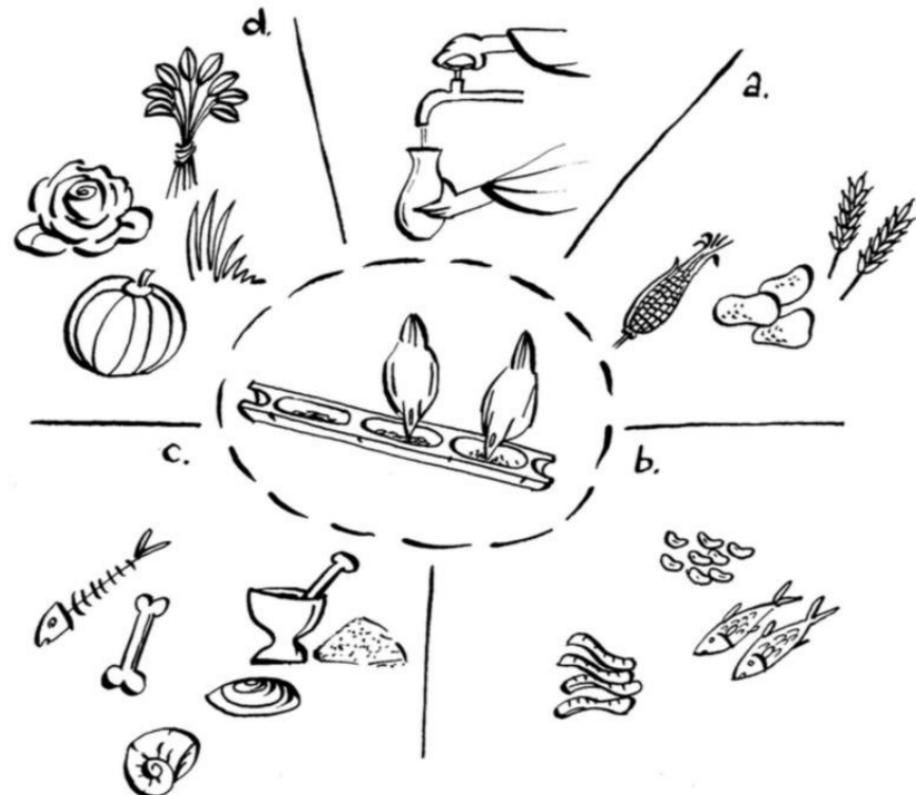

Vaccinez tous vos poulets régulièrement.
