Qu'est-ce que les revues prédatrices ?

Définition par Grundniewicz et al 2019

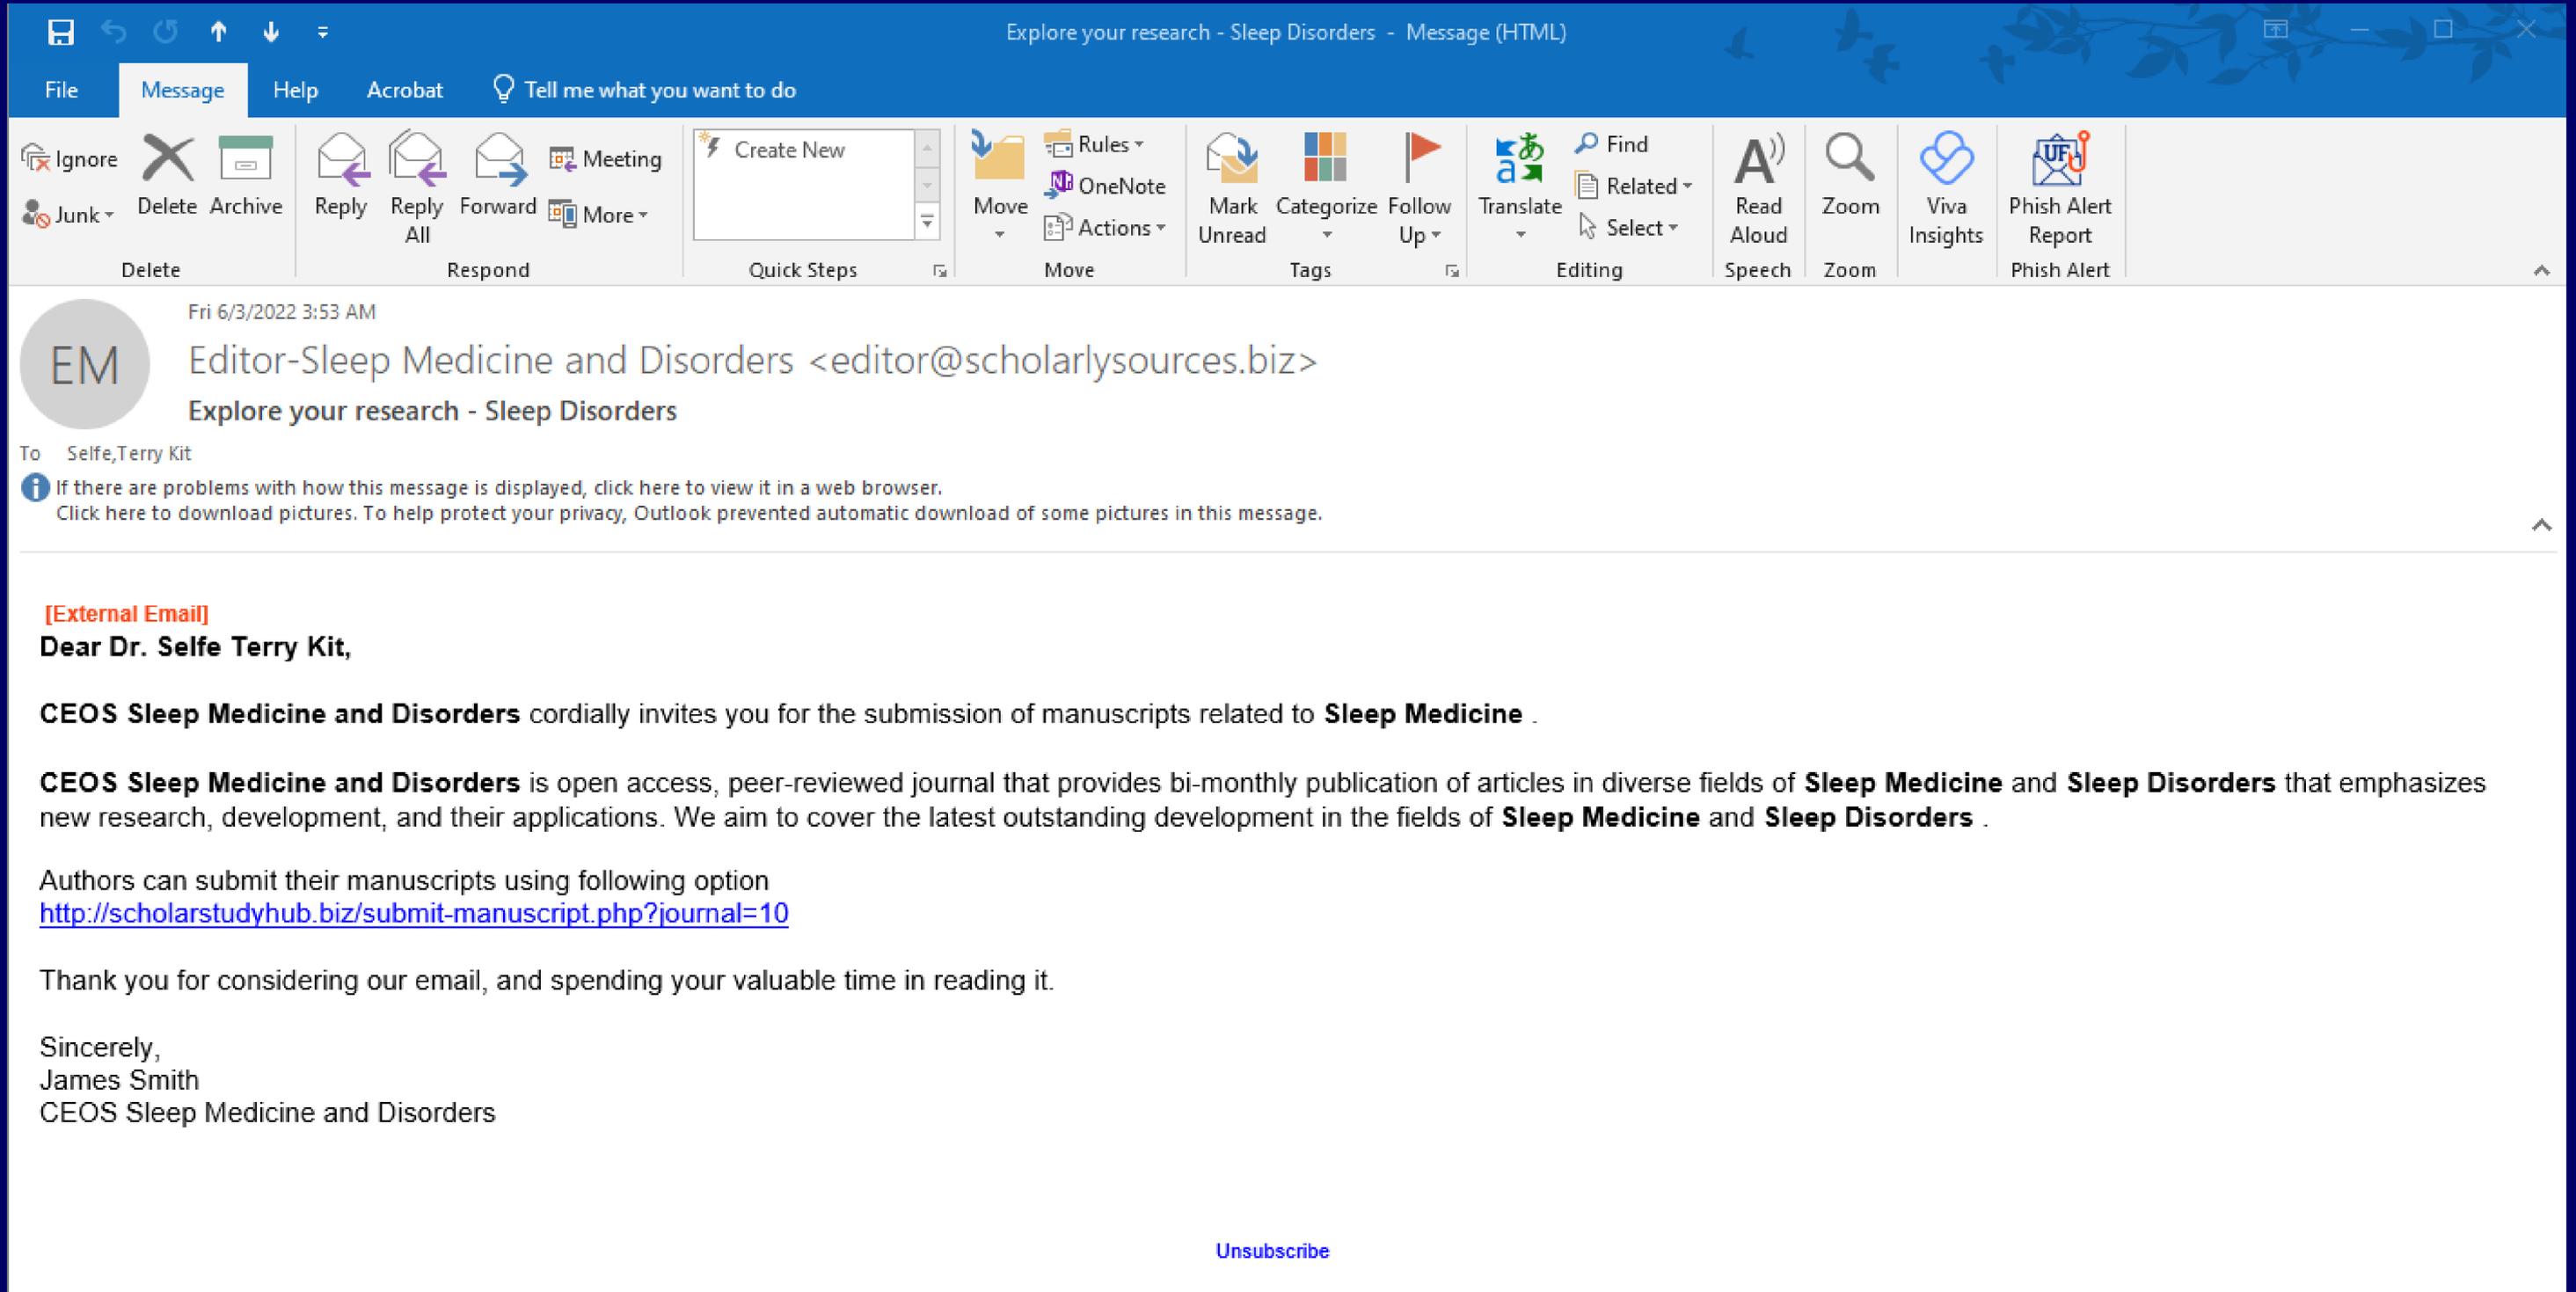

Consensuelle:

“Les revues et éditeurs prédateurs sont des entités qui privilégient l'intérêt personnel au détriment de l'érudition (de la science) ; elles sont caractérisées par l'information fallacieuse ou trompeuse, la déviation des meilleures pratiques éditoriales et de publication, un défaut de transparence, et/ou des pratiques de sollicitation agressive et indiscriminée. .”¹

The screenshot shows the Web of Science Master Journal List interface. At the top, there are navigation links: 'Search Journals', 'Match Manuscript', 'Downloads', and 'Help Center'. On the right, there are 'Login' and 'Create Free Account' buttons. A blue banner below the navigation contains the text 'The power of the Web of Science™ on your mobile device, wherever inspiration strikes.' with 'Dismiss' and 'Learn More' options.

The main content area is titled 'Refine Your Search Results'. A search bar contains the text 'journal of dairy science', which is circled in green. To the right of the search bar is a 'Search' button and a 'Sort By: Relevancy' dropdown menu. On the left side, there is a sidebar with a 'Find a Match' button and a 'Filters' section with a 'Clear All' button. The filters include 'Web of Science Coverage', 'Open Access', 'Category', 'Country / Region', 'Language', 'Frequency', and 'Journal Citation Reports' (with a toggle for 'Has 2020 JIF').

The search results show an 'Exact match found' for 'JOURNAL OF DAIRY SCIENCE'. The journal details include: Publisher: ELSEVIER SCIENCE INC, STE 800, 230...; ISSN / eISSN: 0022-0302 / 1525-3198; Web of Science Core Collection: Science Citation Index Expanded; and Additional Web of Science Indexes: Biological Abstracts | BIOSIS Previews | Essential Science Indicators. There is an 'OPEN ACCESS' badge in the top right corner of the journal entry.

At the bottom of the journal entry, there are links for 'Share This Journal' and 'View profile page'. A note at the bottom right states '* Requires free login.'.

A large green callout box is overlaid on the search results, containing the text: 'Allégation concernant le Facteur d'impact de la revue Vérifiez dans JCR Consultez la page "profile" (connexion gratuite nécessaire)'. A green arrow points from the 'View profile page' link to the callout box.

Au-delà du fait d'éviter les revues prédatrices

“Est-ce une revue prédatrice ?” n’est pas souvent la bonne question

- **Plutôt que de passer du temps sur des revues douteuses, cherchez des revues qui répondent le mieux à vos besoins.**
- **Adoptez une approche plus stratégique dans le choix de la revue dans laquelle publier**
- **Qui est votre cible ?**
- **Quels indicateurs sont importants pour vous et où les obtenir?**
- **Consultez les bases de données adéquates pour trouver des revues qui publient des articles comme celui que vous avez à l’esprit**
- **Vérifiez le site web de la revue pour savoir si elle est adaptée**
- **Des listes de contrôle peuvent être utiles en ce moment**

Aims & Scope

An official journal of the American Dairy Science Association®, *Journal of Dairy Science*® (JDS) is the leading peer-reviewed general dairy research journal in the world. JDS publishes original research, invited review articles, and other scholarly work that relates to the production and processing of milk or milk products intended for human consumption. The journal is broadly divided into dairy foods and dairy production sections. JDS readers represent education, industry, and government agencies in more than 70 countries with interests in biochemistry, breeding, economics, engineering, environment, food science, genetics, microbiology, nutrition, pathology, physiology, processing, public health, quality assurance, and sanitation.

Journal Selection for MEDLINE

The National Library of Medicine (NLM) decides whether the scientific and editorial character and quality of a journal merit its inclusion in MEDLINE. In making this decision, NLM considers scientific policy set by the NLM Board of Regents, the suitability of the journal for the NLM Collection (according to the criteria in the [Collection Development Guidelines](#)), as well as the recommendations of an NIH Federal Advisory Committee, the Literature Selection Technical Review Committee (LSTRC).

The LSTRC consists of fifteen members, including scientists (i.e., Ph.D.- or M.D.-level researchers and physicians) and medical librarians. The LSTRC generally reviews articles from the last two years of journal content and evaluates them primarily based on scientific and editorial quality. The final decision of whether to index a journal for MEDLINE is made by the Director of the NLM.
