

## FEED THE FUTURE INNOVATION LAB FOR LIVESTOCK SYSTEMS

### Phase I Capacity Building in Ethiopia

#### Capacity development gap analysis

- Collaborated with Gondar University, Haramaya University, and Hawassa University.
- Identified the training and organizational development needs critical to improve the livestock research and teaching capacity in key universities.
- Click to review a [Summary Brief](#) and a detailed [Gap Analysis report](#).

#### Case study in Ethiopia from an innovation systems perspective

- Review paper: [An Innovation Systems Approach to Capacity Development: Insights from Learning Exercises with the Feed the Future Innovation Lab for Livestock Systems in Ethiopia](#).

#### Capacity building activities in Ethiopia

- Supported numerous technical and soft skills training and exchange. Selected [training resources](#) are available online.

### Phase II Local Capacity Development in Ethiopia

The main goal for Phase 2 is to strengthen partner organizations and the enabling environment for livestock systems research.

Our **Local Capacity Development** approach is informed by the [forthcoming USAID policy](#) that focuses on improved performance of local actors and local systems in achieving and sustaining development results. We will work with local partners to identify and address systemic issues in the livestock research system through leveraging local strengths, assets and networks.
